<i>15</i>	<i>Egyptian & Foreign Fleet</i>
<i>17</i>	<i>Miscellaneous Classifications (Petroleum Products-Food Products)</i>

Analysis

❖ ***This report shows the higher percentage changes in 2021 by increasing 8% compared with 2020 which classified :***

- ***Containers by 18%***
- ***Dry bulk specifically exported dry bulk 104% Where the major increase in the share of clinker in 2021 (50.000 - 38.000 - 1.805.309.1 Tons) during (2019-2020-2021).***
- ***General cargo specifically exported cargo by 83 % represented in iron by 232%.***
- ***The exported liquid bulk which is represented in oils increased by 14%.***

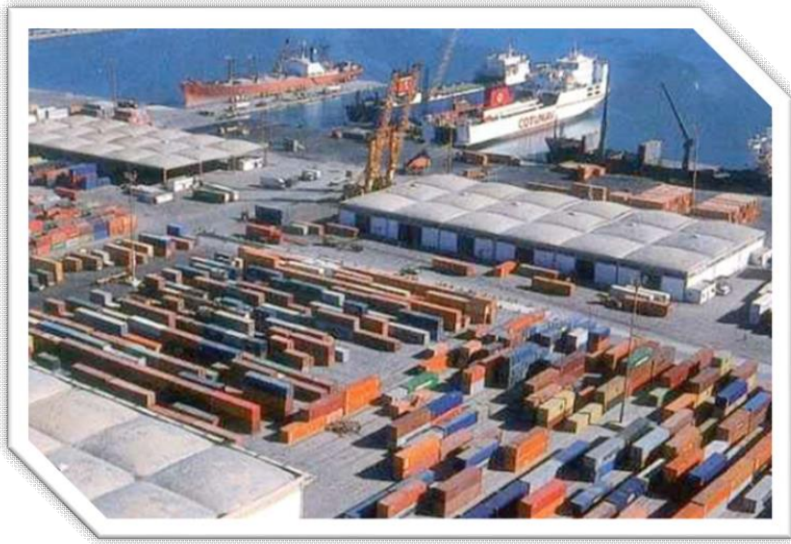

❖ ***Increasing in the number of ships by 4% compared with 2020 :***

Increase in all types of ships except the container which decreased by 5% that lead to decline the number of teu's by 6% due to:

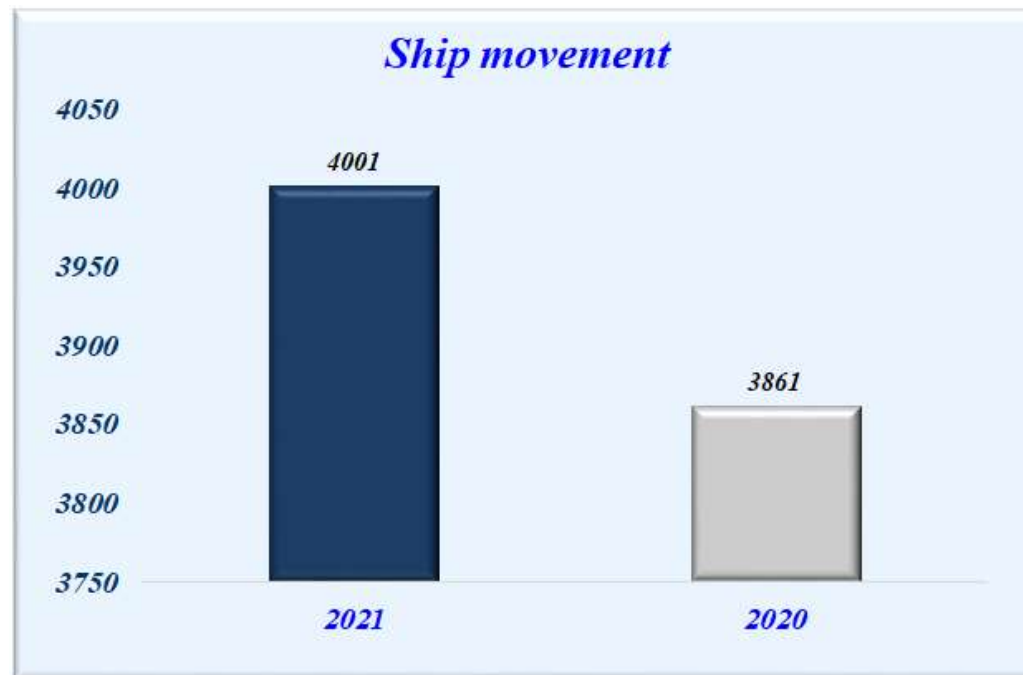

- ***Some shipping lines, such as Maersk was distributing containers on small size ships rather than container large container ships T.E.U.***
- ***Global ports congestion as it was in China.***

❖ ***Increase in cruise ships by 200% as well as the number of passengers by 77% compared with 2020, This achievement is due to the great effort of A.P.A leaders in coordinate with the ministry of tourism and cruise lines to attract cruise ships despite of global decline***
